Testimonials

I have always been impressed with the service by Grafton Fleet Motorcycles. Their response time is second to none and the speed in which my fleet of mopeds are repaired/serviced and back on the road is brilliant! The Team is really easy to work with and seem to appreciate my custom and understand that time is of an essence in this business! As such I would have no hesitation to wholeheartedly recommend them to colleagues and Associate Franchisees.

Grafton Fleet Motorcycles provide a truly professional service.
